- Genuine OEM parts and valves
- Dedicated Quick Ship team for emergency deliveries
- Located near our customers and shipping centers
- Ensure prompt delivery during unplanned outages by using a best match program

Parts and Valves Delivered When You Need Them!

We understand that receiving emergency delivery of valves and spares is critical to managing your plant effectively. The Fisher Quick Ship program will help you keep your site up and running.

By using genuine OEM parts, reliability is ensured. The original quality of your Fisher control valves is maintained throughout your plant's life cycle with the original reliability and safety designs intact.

Emerson's Quick Ship centers are strategically located to provide logistics support for your local and regional spare parts inventories. From spare parts through replacement valve assemblies, Quick Ship is there to support your maintenance, reliability, and procurement activities.

How Does the Fisher Quick Ship Program Work?

Stocked Parts and Valves

You can get one-day delivery on a stock of pre-defined Fisher valve constructions.

With the Quick Ship parts stocking program we are able to ship OEM parts requested in 24 hours.

Quick Ship Dedicated Team

We have a dedicated team focused on delivery of quality Fisher products in timescales shorter than factory lead-times.

This team provides emergency service to minimize disruption to your plant and benefit your bottom line.

Machined Parts and Valve Assemblies

By leveraging existing delivery programs, we have a stock of predefined valve constructions to give you a 3-day delivery on certain valve assemblies.

Global Distribution Network

The global network provides 24/7 support for your local suppliers of genuine OEM parts. No matter where you are located in the world, rest assured the global network can shorten lead times and provide you with the peace of mind to stay focused on your operations.

Our Quick Ship workshops have factory-trained people with access to factory specifications and assembly procedures that get machined parts shipped in 3 days.

For those special leadtime requests, use our Quick Ship team to ensure quick delivery of parts and assemblies. Please contact an Emerson local sales office for assistance.
