G	Graphics <b>(Note 2 &amp; 9)</b>

Typical HART Model Number: 375 H P 1 E KL U

Typical HART/Fieldbus Model Number: 375 F P 1 E KL U

- (1) Base Model 375 includes Field Communicator unit, System Card, Leadset with connectors, Carrying case, Getting Started Guide, User's Manual, 375 Resource CD, stylus and straps.
- (2) This option requires that you also specify the Easy Upgrade option (Code U).
- (3) The NiMH Battery Pack for the 375 Field communicator is no longer available. The Li-Ion Power Module replaces it.
- (4) To obtain an Australian Power Cord order part #00375-0003-0003
- (5) This option should only be considered if the user already has a 375 Power Supply/Charger that supports the Battery Type they are ordering.
- (6) The Easy Upgrade feature allows the user to add new System Application software and Device Descriptions (DD's) to the 375 for a period of 3 years. To upgrade without this feature, the System Card would have to be sent to a Service Center. (fee would apply)
- (7) Option available with Li-ion Battery Type (code P) only.
- (8) The 375 unit is capable of storing a total of 25 device configurations. For increased storage capacity specify the Configuration Expansion Module (code C) which is capable of storing in excess of 500 configurations.
- (9) The Graphics Option enables a user to access Enhanced Graphical features when using the HART or FOUNDATION™ fieldbus Application. (as applicable)
