

# Seminar on Machinery Health™ Management

## UTILIZE THE POWER AT YOUR FINGERTIPS!

### DESCRIPTION

Emerson's CSI 2130 Machinery Health® Analyzer and AMS® Suite: Machinery Health Manager software represent the state-of-the-art in vibration data collection and analysis equipment. During this one-day seminar, you will:

- Learn how you can provide a more complete machinery health evaluation and/or diagnosis by utilizing the 15 embedded Analysis Experts resident in the CSI 2130.
- Learn how to generate detailed reports on the health of the assets you are monitoring.
- Learn about the new features and enhancements for the CSI 2130.
- Learn about the new features and enhancements in AMS Suite: Machinery Health Manager 5.2.
- Have the opportunity to give feedback about current products and suggestions for future products directly to Emerson engineering.

### AGENDA

8:30 – 9:00	Continental breakfast and introductions
9:00 – 10:15	Identification and use of the 15 embedded Analysis Experts resident on the CSI 2130 Machinery Health Analyzer.
10:15 – 11:00	New firmware features and enhancements for the CSI 2130.
11:00–12:00	Generate detailed reports on the health of the assets you are monitoring.
12:00–1:00	Lunch and Q&A

1:00–1:45	New features and enhancements for AMS Machinery Manager 5.2
1:45–3:00	Feedback about current products and future products or enhancements to existing products directly to Emerson engineering
3:00	Adjourn

### DATES / LOCATIONS
