

Set the Foundation for Long-Term Success

- *Reduce downtime*
- *Manage maintenance budget with Emerson's Certified Services*
- *Optimize inventory management systems*
- *Prepare your plant for life cycle success*

We'll help you maximize the performance of your valves and instruments.

Your plant is operational, and it usually functions adequately. At this stage of your plant life cycle, you question if your processes are as efficient as they could be. And you think carefully about how you can prevent the next unplanned process upset.

Experts from Emerson's Instrument & Valve Services can help you optimize both your processes and your instrument and valve assets. Designed specifically for plants that are past their startup phase, our Life Cycle Management Services focus on existing plant performance by recommending

enhancements that reduce downtime to ensure successful operation in the future.

Our factory-trained and -certified valve and instrument technicians will be onsite to make sure that your instruments and valves are properly maintained and calibrated for optimal performance. We have access to proprietary original equipment manufacturer (OEM) procedures and parts, so you are assured that your assets will meet regulatory requirements after repair.

If you prefer, you can handle your maintenance and repair needs through one of our conveniently-located service centers throughout North America. We'll repair or restore your malfunctioning instruments and valves or send you new, calibrated, ready-to-install replacements. Our services, which are second to none in scope and quality, include:

- Asset Evaluation Services (Diagnostic)
- Asset Restoration Services (Repair)
- Asset Material Planning (Inventory)
- Handheld Communicator Services
- Turnaround Services

To meet your budget needs, you can utilize our services on an as-needed basis or through a contracted schedule. Either way, we'll ensure that every instrument and valve in your plant is being maintained regularly and properly.

*To find out more about how Life Cycle Management Services can help keep your field devices running smoothly and profitably throughout your plant's life cycle, contact your local Emerson Process Management sales representative or the North American Response Center at **1-800-654-7768**.*
